## A Message to all Members from the Club Board:

In conjunction with the completion of the Fiscal Year End of June 30, the University Club Board and Management have collaborated on and approved a balanced budget for the next year of operations. The challenges faced include the loss of revenue due to the severe flooding experienced in August 2009, and the general economic conditions that have adversely impacted the Private Club industry, as well as the University community as a whole. Management and the Board have vigorously pursued measures to enhance revenue and reduce costs, without compromising the quality of the food, beverage, facilities, and service offered to our Members and guests.

These cost controls have regrettably included adjustments to hours of operations and a reduction in personnel, and thus have been borne equitably by service and management level staff. In meeting its obligations to the Membership, the Board has approved a modest adjustment in dues to all membership categories effective July 1, 2010, that will be reflected on monthly statements mailed June 30.

Thank you for your continued support of the University Club as we move forward together in keeping with the established tradition of excellence offered to our Members and Guests.
